

Olimp Labs

Erektion™ fast This innovative formula, designed specifically for men, contains a high dose of L-arginine, as well as L-citrulline, Korean ginseng, black pepper extract BioPerine®, pantothenic acid, zinc and selenium. L-citrulline is a precursor of arginine, an amino acid, from which nitrous oxide is formed. Ginseng promotes vitality and good sexual condition and helps provoke and improve erection. Zinc contributes to the maintenance of normal testosterone levels in the blood. Pantothenic acid contributes to normal synthesis and metabolism of steroid hormones, testosterone being one of them. Black pepper extract helps in body weight control, maintain natural digestive functions and can increase the effectiveness of other herbal ingredients. The product is intended for men to maintain and improve physical and sexual activity.
